

INTER-OFFICE MEMORANDUM

CITY OF SPRINGFIELD

Bob Carson

ATTENTION: Bob Schaefer

DEC 17 1985
DATE: December 11, 1985

DEPARTMENT: Sanitary Services

I received a citizen complaint this afternoon from Clifford VanNatta, 1221 East Thoman, Springfield, Missouri 65803. He described a trailer located in an alley on the south side of Atlantic between National Avenue and the next street to the east. His descriptions of the location are somewhat difficult to follow. The offense could be occurring between Thoman and Prospect in an alley on the north side in approximately the 1300 block adjacent to the blue and white metal building owned by Mr. Iceman. The complaint refers to a trailer located in this alley adjacent to the Mr. Iceman facility, which trailer apparently is being used as living quarters, and has a sewer pipe running from the trailer directly into a manhole. I believe this is a violation of the City Code.

Other complaints regarding this property have been referred to Linda Patterson in the Public Works Department. You may wish to work with her on this.

Signed: *Karen Marty*
